

NETAFIM GREENHOUSE SPRINKLER

Netafim SpinNet and VibroNet Sprinklers produce high levels of watering uniformity with drip-less sprinklers specifically designed for a full range of bedding plant applications.

All in row spacing is 3' [4' above crop] and 35 PSI or higher.

Greenhouse Misters

Growers choose the Rivulis FLF Low Flow Fog Spray for irrigation and as a method to alter the humidity and the evaporative climate in both greenhouses and high tunnels. The FLF is so versatile that it can be used as part of a cooling system in husbandry or for irrigation in both cutting propagation and seed germination. Because of the unique vortex flow, the FLF delivers the finest droplets even at low flow rates. Team up the FLF Low Flow Fog Spray with an anti-leak valve and you've got a system with some serious control. Once the irrigation system is shut off there is no more flow through the fog spray.

50-70 PSI Operating Pressure.

RONDO MICRO SPRINKLER

HANGING GREENHOUSE SPRINKLER

The Rondo Micro Sprinkler is a great choice for greenhouses. With a wide range of features and flexible installation options, Rondo Micro Sprinklers deliver gentle water droplets throughout a consistent spray pattern. 36-58 PSI operating pressure.

S2000 SERIES MICRO SPRINKLER

UPRIGHT MICRO SPRINKLER

The S2000 Micro Sprinkler features flow regulation extending the use of the sprinklers in applications with sloping fields or long lateral runs. It can be installed in combination with a plastic stake, metal stake, or hanging assembly. The range limiter reduces the diameter of spray pattern. Applications: Short term crops such as vegetables and long term crops such as orchards. Install 12" - 24" above crop.

* 20-30 PSI Operating Pressure
* 20-50 PSI Operating Pressure with Flow Regulation
* Flow Based @ 30 PSI
